### **DETAILED ACTION**

Applicants' amendment dated 05/24/2005 has been received and entered. By the amendment, claims 25-31 are pending in the application.

#### ***Terminal Disclaimer***

1. An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c).

Therefore, the terminal disclaimer dated 05/24/2005 is not proper.

#### ***Double Patenting***

2. Claims 25-31 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 of U.S. Patent No. 6,833,887. Although the conflicting claims are not identical, they are not patentably distinct from each other because both application and the patent disclose the same liquid crystal shutter having a twisted angle of greater than 180°, a pair of polarizing plates and a driving circuit for driving the liquid crystal shutter.

It should be noted that the original driving method claims has been canceled, so the driving circuit for a liquid crystal shutter as currently amended should be rejected over the parent application (US 6,833,887).

Although the Terminal Disclaimer has been filed on May 24, 2005, the Double Patenting rejection has not been overcome as stated above.

***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
